Event date: Tuesday 27 November 2012
Event time: 5:00pm to 6:30pm (Registration from 4:30pm)
Event venue: Seminar Room Q430, Institute for Health and Biomedical Innovation,
QUT, Cnr Musk Ave and Blamey Street, Kelvin Grove Qld 4059 (Brisbane)

IN ADDITION TO THE BRISBANE VENUE PLEASE SEE THE ATTACHED FLYER FOR DETAILS OF REGIONAL VIDEOCONFERENCE SITES

Cost: This free lecture is being provided by the QLD DTSC at no cost to participants under funding from the Australian Government. However, registering to attend the event is essential (see registration information below).

Overview of Key Content: Treatment of dementia has traditionally focused on the cognitive and behavioural symptoms of the disease, and the physical side is often neglected. This presentation reviews those physical conditions that occur more commonly in people with dementia than in those without dementia. These include epilepsy, delirium, falls, frailty, incontinence, malnutrition, sleep disorders, and visual dysfunction, which may all lead to excess disability and reduced quality of life for the person with dementia and their family. It gives detailed information, practical explanations, and evidence-based recommendations for how to recognise and manage these conditions.

To register for the Brisbane venue only: Registration for this free lecture closes on Thursday 22 November 2012. Places are limited – to avoid disappointment please register online at:
<https://qlddtsc.eventarc.com/11768/27Nov2012>

A confirmation email will be sent to you. If you experience a problem with your online registration please contact us on 3138 3822 or qlddtsc@qut.edu.au.

To register for the regional videoconference venues: Should you wish to attend the lecture at any of the regional sites, you **must contact** the person listed for that venue on the attached flyer.

If you would like any further information about this event, please contact the QLD DTSC
on (07) 3138 3822 or qlddtsc@qut.edu.au

This Guest Lecture has been endorsed by APEC number 016091001 as authorised by Royal College of Nursing, Australia according to approved criteria. Attendance attracts 2 RCNA CNE Points as part of RCNA's Life Long Learning Program (3LP).
