

DTSC/DCRC NATIONAL WORKSHOP SERIES

Improving the care of people living with dementia.

Date: 22nd and 23rd March 2016

Places are limited.

Venue: Mantra On Northbourne

Register your attendance via

<http://dtsc.com.au/events/canberra-workshop/>

84 Northbourne Ave, Canberra

Participants are invited to register for either Day 1, Day 2, or both.

This event is free* and lunch is provided. Participants will receive a Certificate of Attendance.

DAY ONE Tuesday 22nd March
(9am—3pm)

Care Strategies for Behavioural and Psychological Symptoms of Dementia

Facilitator: Ms Kim Burns*
(Dementia Collaborative Research Centres)

This workshop:

- Will increase participants awareness of evidence-based resources that outline key principles and strategies to assist in the care of people with dementia who present with behavioural and psychological symptoms.
- Will feature practical resources based on the document *Behaviour Management – A Guide to Good Practice: Managing Behavioural and Psychological Symptoms of Dementia*.

Who should attend on Day Two?

Those providing or managing care for people with dementia who present with responsive behaviours in residential and community aged care settings.

DAY TWO Wedn 23rd March
(9am—4pm)

Designing For People with Dementia

Facilitators: Prof Richard Fleming* (DTSC)
Ms Terri Preece* (DTSC)

This workshop:

- Looks at ways that the built environment can improve the daily experience of people living with dementia in acute and residential aged care settings.
- Introduces audit tools & applies them to case studies.

Who should attend on Day One?

Facility managers, clinical & allied health managers, architects, health planners, project managers, health professionals, and design consultants.

Each workshop will also include an opportunity to discuss some of the specific opportunities and challenges when translating new learnings into your practice and work place.

(Facilitator: A/Prof Belinda Goodenough* Knowledge Translation Program Manager, DTSCs)
